Surrey, BC, Canada
(3.33 GPA)

Work Experience

Correctional Officer — Mar 2020 – Jan 2021
BC Corrections, Oliver, BC
While working at the shelter in Kelowna I began working at the prison in Oliver. The experience was a mixed bag as I discovered that a job in this line of work was not a long-term option, but the interactions with staff and inmates was overall a positive experience.

Responsibilities Included:
- Supervising inmates to assure their safety, the safety of staff, and rules were followed
- Successfully disarming heated situations with inmates and building positive rapport
- Submitted, and praised for, daily documents which contained detailed information

Shelter Support Worker — Oct 2019 - Aug 2020
John Howard Society Okanagan, Kelowna, BC
Upon moving back to Canada, and hoping to gain experience for a career in law enforcement, I began working at a homeless shelter in Kelowna, BC.

Responsibilities Included:
- Ensuring the safety and needs of residents were assured
- Professionally dealt with overdoses, physical altercations, and verbal disagreements

Head Foreign Instructor — Sept 2016 - Sept 2019
Heungryong Elementary School, Daejeon, South Korea
I originally moved to South Korea to experience life as a teacher and gain cultural exposure. I soon fell in love with the culture, people, and exposure to new experiences.

Responsibilities Included:
- Collaborating with native Korean speakers to create activities and curriculum
- Creating report cards and evaluating up to 700+ students

Helpdesk Technician — Nov 2015 - June 2016
FixMeStick, Montreal, Quebec, Canada
After graduating from university, I sought experiences in the IT sector. Along with this experience, I taught English during the week and attended French classes.

Responsibilities Included:
- Recognizing and escalating more difficult problems to Tier 2 support
- Providing technical assistance and support for incoming customer queries

About Me

A local man who previously devoted himself to martial arts, philosophy, and learning new skills. Now, I am eager to become skilled as an IT-focused individual as I aim to restart my career.

I am currently looking for a role to learn the skills that will allow me to build a long-term career. Specifically, I hope to eventually have the skills to be a full stack developer yet I am eager to learn everything I can.

Skills Profile

- Diversified experiences dealing with high pressure and demanding scenarios
- Extensive experience with Microsoft Office, Windows, and Linux
- Proven ability to learn new skills and adapt to new working environments
- Knowledge of troubleshooting hardware like printers, phones, and scanners
- Experience problem-solving and creating projects through the use of JavaScript, CSS, React, HTML
- Familiar with SQL, Express and MongoDB
- Strong negotiation and conflict resolution skills
- Intermediate Korean and French
